### DETAILED ACTION

1. This office action is in response to the amendment filed on December 11, 2007, in which claims 1, 4-9, 12-17, 20-22, 24-28 and 31-36 are presented for further examination.

### EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chad D. Terrell (Reg. No. 52,279) on March 31, 2008.

The application has been amended as follows:

**In the Claim:**

28. (Currently amended) A directory services arrangement comprising:

One or more memory operable to store a plurality of tables, each table comprising a plurality of rows and columns, operable to store arbitrary data, at least one of the tables comprising information for resolving filters that comprise at least one filter item in a search service; and

One or more processing unit operable to:

Execute a condition tester operable to determine:

Whether each filter item comprises a NOT connective; and

whether each filter item comprises a type only filter item or a type and value filter item;  
and

the directory services arrangement operable to apply, if a determination is made that the filter item comprises a NOT connective and a type only filter item, apply a logical methodology to evaluate the filter item, the logical methodology comprising expanding an expression of the filter item so that the filter item does not comprise the NOT connective.

36. (Currently amended) Software for processing a database service query, the software being embodied in on a computer-readable medium and ~~when executed operable to~~ having instructions for causing a processor to perform operations, comprising:

~~receive~~ receiving a service query, the service query comprising a filter comprising one or more filter items;

~~expand~~ expanding the filter;

~~apply~~ applying a condition test to each filter item of the filter, the condition test comprising:

determining if the filter item comprises a NOT connective; and

determining if the filter item comprises one of a type only filter item or a type and value filter item; and

if a determination is made that the filter item comprises a NOT connective and a type only filter item, apply applying a logical methodology to evaluate the filter item, the logical methodology comprising expanding an expression of the filter item so that the filter item does not comprise the NOT connective.

***Allowable Subject Matter***

3. Claims 1, 4-9, 12-17, 20-22, 24-28 and 31-36 are allowable in light of the Applicant's arguments and in light of the prior art made of record.

***Reasons for Indicating Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance: Upon searching a variety of databases, the examiner respectfully submits that "if a determination is made that the filter item comprises a NOT connective and a type only filter item, apply a logical methodology to evaluate the filter item, the logical methodology comprising expanding an expression of the filter item so that the filter item does not comprise the NOT connective" in conjunction with all other limitations of the dependent and independent claims are not taught nor suggested by the prior art of record (PTO-892 and 1449). Therefore, all pending claims 1, 4-9, 12-17, 20-22, 24-28 and 31-36 are hereby allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
